NEXT GENERATION OF PERFECTION

# GLOCK GEN4 PISTOL SET

The Gen4, just like any GLOCK pistol has the same time tested

- "Safe Action" system
- durable exterior finish
- cold hammer forged barrel
- durability
- reliability
- light weight

... that make GLOCK firearms famous!

The new Gen4 has several new features designed to satisfy the most demanding consumers. It is based on a full size G17/G22 MBS (multiple back strap) frame with a reduced short frame trigger mechanism housing. The multiple back strap system allows the user to change the circumference of the grip to fit their individual hand size.

The grip has three options; a short frame version, medium frame or large frame that are easily changed and secured with a single pin.

The grip angle of the GLOCK "Safe Action" Pistol is not changed by back strap modifications. This ensures that the shooter does not shoot high or low when modifying the back strap or when shooting with a different GLOCK Pistol.

**Warning:**  
Always point the muzzle in a safe direction. You must follow all safety rules provided with your firearm to ensure its safe use.

The smallest option is the initial G17 MBS frame, without back straps, reducing the trigger distance of the standard size G17/G22 frame by 2 mm. Mounting the medium back strap (2 mm) offers equal size of a standard G17/G22 frame or alternatively the large back strap is 4 mm.

The magazine release catch of the Gen4 is reversible and enlarged to the rear. The reversible magazine catch is more comfortable to reach and allows users to switch the catch to the left or right side of the pistol with no additional parts.

Additionally, the Gen4 has a new Rough Textured Frame (Gen4 RTF) surface designed to enhance grip traction, without being too aggressive. It is present on the frame as well as on the interchangeable back straps.

**Safety Warning:**  
Always ensure that the firearm is unloaded before assembling or changing back straps or any other part

## MAGAZINE

Gen4 Magazine

The 4th generation magazine has a recess and two notches to operate properly with all types of existing magazine catches.

## RECOIL SPRING

Recoil Spring

Internally, the original recoil spring has been replaced with a dual recoil spring assembly. The dual recoil spring assembly noticeably reduces the recoil while simultaneously increasing the life cycle of the assembly.

## GLOCK Gen4 Compatibility

GLOCK "Safe Action" pistols only require 34 components - clearly less than conventional pistols. This simplifies spare parts logistics, reduces susceptibility to errors, reduces maintenance costs and above all results in unsurpassed parts compatibility among various GLOCK pistol models.

- 01 Slide
- 02 Barrel
- 03+04 Recoil spring assembly
- 05 Firing pin

### SAFETY RULES

- Handle all firearms as if they were loaded.
- Always keep the firearm pointed in a safe direction.
- Keep your finger out of the gun's trigger guard and off the trigger until you have aligned the gun's sights on a safe target and you have made the decision to fire.
- Always be certain that your target and the surrounding area are safe before firing.
- Whenever you handle a firearm, the first thing you should do (while keeping it pointed in a safe direction with your finger outside the trigger guard) is open the action to determine whether or not the firearm is loaded.
- Thoroughly read the instruction manual supplied with your firearm.
- Before firing your weapon, you should routinely make sure that your firearm is in good working order and that the barrel is clear of dirt and obstructions.
- Only use ammunition recommended by the firearm manufacturer, and always be certain that the ammunition matches the caliber of your gun.
- Quality ear and eye protection should always be worn when shooting or observing.
- Never use firearms while under the influence of drugs or alcohol.
- All firearms should be stored unloaded and secured in a safe storage case, inaccessible to children and untrained adults.
- The transportation of firearms is regulated by Federal, State and local laws. Always transport your firearm in a safe, unloaded condition and in accordance with applicable laws.

# GLOCK

## “SAFE ACTION” SYSTEM

GLOCK pistols are equipped with the Safe Action System, a fully automatic safety system consisting of three passive, independently operating mechanical safeties, which sequentially disengage when the trigger is pulled and automatically reengage when the trigger is released.

- 1 Trigger Safety
- 2 Firing Pin Safety
- 3 Drop Safety

### 1 Trigger Safety

The trigger safety is incorporated into the trigger in the form of a lever and when in the forward position, blocks the trigger from moving rearward. To fire the pistol, the trigger safety and the trigger itself, must be deliberately depressed at the same time. If the trigger safety is not depressed, the trigger will not move rearwards and allow the pistol to fire.

engaged

disengaged

### 2 Firing Pin Safety

The spring-loaded firing pin safety projects into the firing pin channel and mechanically blocks the firing pin from moving forward. When the trigger is being moved rearwards, a vertical extension of the trigger bar pushes the firing pin safety upwards, clearing the firing pin channel. During the slide cycling process, the firing pin safety automatically reengages.

engaged

disengaged

### 3 Drop Safety

The rear part of the trigger bar, which has a cruciform shape, rests with both arms on the drop safety shelf located in the trigger mechanism housing. When the trigger is pulled to the rear, the trigger bar begins to move off until finally separating from the firing pin lug. During the slide cycling process, the trigger bar is lifted and caught by the firing pin lug. The trigger bar is reengaged by the firing pin lug.

engaged

disengaged

# M&P®9 M2.0™

SKU: 11521

**\$599.00\***

\*Suggested Retail, Dealer Sets Actual Pricing

# OVERVIEW

The M&P M2.0 pistol, the newest innovation to the respected M&P polymer pistol line. Designed for personal, sporting, and professional use, the M&P M2.0 delivers an entirely new platform, introducing innovative features in nearly every aspect of the pistol, including trigger, grip, frame, and finish. Highlights of the M&P M2.0 pistol include an extended stainless-steel chassis and high grip to barrel bore axis ratio for reduced muzzle rise and faster aim recovery. The M&P M2.0 pistol further improves performance with a fine-tuned, crisper trigger, lighter pull and a tactile and audible reset. The pistol, available in three calibers, includes an aggressively-textured grip and four interchangeable palmswell inserts for optimal hand-fit and trigger reach. The striker-fire, semi-automatic polymer pistol is available in matte black or FDE – Flat Dark Earth – finishes, and includes two magazines, a limited lifetime warranty and a lifetime service policy.

## Features

- High grip to barrel bore axis makes the M&P pistol more comfortable to shoot reducing muzzle rise and allowing for faster aim recovery.
- Proven optimal 18-degree grip angle for natural point of aim.
- Four interchangeable palmswell grip inserts for optimal hand fit and trigger reach - S, M, ML, L.
- Aggressive grip texture for enhanced control.
- New M&P M2.0 crisp trigger with lighter trigger pull.
- Tactile and audible trigger reset.
- Accurate 1 in 10" twist M&P M2.0 barrel.
- Extended rigid embedded stainless steel chassis to reduce flex and torque when firing.
- Armornite® durable corrosion resistant finish.

ALL BACKED BY OUR SMITH & WESSON LIFETIME SERVICE POLICY.  
Availability subject to applicable federal, state and local laws, regulations, and ordinances.

# CZ 75 B

## PRODUCT DESCRIPTION

Designed in 1975, the CZ 75 is the flagship model of the CZ handgun line with over one million

produced. An entire family of pistols is available based on the basic CZ 75 design: compacts, decockers, single action only, ambidextrous, alloy frames as well as competition pistols.

The 75 B features a steel frame, a black polycoat finish, 3 dot sights, 16+1 9mm capacity (10+1 in .40 S&W) and, of course, the ergonomics and DA/SA action that have made it the most copied handgun design second only to the 1911. The 'B' designation is an indicator that the model is equipped with a firing pin block safety.

CZ 75 B is used by more governments, militaries, police and security agencies than any other pistol in the world. The CZ 75 is quite possibly the perfect pistol.

- All steel construction (except alloy framed compacts)
- High capacity double column magazines
- Hammer forged barrels
- Ergonomic grip and controls
- Unparalleled accuracy
- Slide-in-frame design for better recoil control
- 3 dot sighting system (Tritium night sights available)
- Smooth double action and crisp single action
- Extended service life due to advanced design and superior materials
- Firing pin block safety

**Daniel Glover – May 4, 2016:**

I have a CZ 75 B from 2007 in .40 S&W. I tell ya' what... there is no finer firearm manufacturer than CZ. It was the first rifle I owned and now the first pistol I owned. This handgun is truly superb.

**Mike** – April 4, 2016:

There's nothing better than the feel of this classic 9mm handgun in your hand. Shoots incredibly accurate, even for a beginner and is extremely reliable.

**Andy Martin** – March 28, 2016:

I own three 9mm Glocks. G26, G17, G19

I target shoot almost everyday. Its an addiction. I shoot in extremely tight groups with my Glocks. I tend to pull all three of my Glocks 2 to 3 inches dead left of bullseye at ten yards out. One day, out of frustration, I asked the range attendant for the most accurate 9mm pistol they have so that I could make a comparison. I expected him to suggest some sort of competition pistol. Instead he handed me a CZ 75b. I can easily say that I have never shot a more accurate gun. Every round hit dead center of bullseye. I put the CZ 75b down and then fired off a few rounds with my full size Glock 17. Making sure as to not change my technique at all, I shot rounds consistently 2 to 3 inches left of where I was aiming.

I tip my hat to the CZ 75b.

**Marcus Fidel** – March 19, 2016:

I own a cz 75 B and am in love with it. It shoots tight groups and fits in my hand well. Frame is heavy enough for second shot acquisitions that are reliable because the recoil is well controlled. This is my sport, carry and home defense pistol and it excels in all three areas. I trust my life on the reliability and accuracy of this firearm.

**Nicholas Dearman** – March 15, 2016:

As of three months ago I was in the market for a new pistol. Still new to the scene the only pistol I had at the time was a Springfield XD's 3.3" 9mm but I wanted a full size 9mm. Something heavy, reliable, and accurate. Which is why I went to my local shop to buy a Beretta M92A1. However when I asked the lady behind the counter if I could see one she brought me out the CZ 75B instead and told me "Why don't you try this one first." It felt as if the grip was molded and made specifically for my hand! I tried the Beretta afterwards and quickly "tossed" it to the side. I love my CZ! Now I'm looking to replace my XD's for the CZ 75 Compact as my EDC. I am a CZ member for life!

**Brian D.** – February 21, 2016:

I wasn't looking to purchase another gun. My collection consists of a Ruger SR-22 for plinking and an LCP 380 for concealed carry. I like guns in general but don't care to own a whole lot. if they are to be owned they better have some redeeming quality.

While at the gun shop getting ammo I asked to see the CZ-75 since I had read about it being one of the best handguns available and it felt good. Then the store owner showed me a newer CZ tactical model and it didn't do much. He proceeded to show me the precision and smoothness of the 75B and I said wrap it up!

The thing fires so smoothly and is a pleasure to look at and handle. Every day I have had off since purchasing I have taken it out shooting.

Beautiful guns guys!

**Fred WG** – February 15, 2016:

Just tried my CZ -75- B, real sweet,accurate,great feel,and smooth action. The only problem I had was getting it out of the case, didn't see the spot that said PUSH. Get it out and enjoy your CZ-75

**Martin Watts** – January 19, 2016:

Purchased my CZ75 when I found our secret service agents were using them. Pre-import-ban first generation. Was a little put off by it's "painted" finish, having been accustomed to the flawless bluing on the Colt model 70 government 9mm I traded in on it, but have since come to love it. The pistol was insanely accurate right out of the box, and reliability is superb! After nearly 40 years, and thousands of rounds run through it, it is still one of my most accurate 9mm pistols and reliability is as good as the first day out of the box! I own a fair number of pistols in various calibers, and while many look much nicer, none are as finely designed and crafted as my CZ75. I have purchased several other CZ firearms based on this experience, and will most certainly be purchasing more on the future. Thanks, CZ!!

**Albert Sievers** – December 13, 2015:

Years ago I was shopping for a gun. I shot Glocks, Berettas, Rugers. At the gun store I rented a CZ75B at the suggestion of one of the salesmen.

The accuracy and comfort of the CZ was so impressive I bought one.

I have let others shoot it, and every person loved it.

At an indoor range I offered the rangemaster to try it. I had the shootnsee 6" target 20 yards out.

"Do you usually train at that distance?" I said "Just see how it goes."

He was duly impressed, and probably surprised at how well he hit the target.

CZ is to guns like BMW is to cars; others are good, but you won't be disappointed with the CZ.

I love mine and it's hard to resist collecting them.

**Joe Manis** – December 9, 2015:

Bought my first CZ 75 (pre B) 20 years ago.

A used piece with a lot of rounds through it.

most accurate pistol I have ever owned. But they do wear out. So now I am shooting the 75 Compact, Same pistol, just shorter barrel but still one of the best point and shoot pistols on the market.

**John Barker** – November 29, 2015:

My first pistol, the CZ 75B (9mm) has provided me with endless fun on the range and peace of mind at home for about five years now. Prior to owning this pistol, I had fond memories of growing up shooting my father's trusted and reliable Browning Hi-Power. I learned gun safety and developed a love for range shooting with his classic Browning (which is still going strong after untold 1000's of rounds). I initially rented a CZ 75B at an indoor range in Western NC on the advice of the proprietor. That day I spent a few hours and a couple hundred rounds admiring the rental pistol's accuracy, reliability and balance, but truly it was love after my first tight grouping. Add to this the 16+1 capacity, and I didn't consider any other makes or models afterward. Flash forward five years and dozens of range sessions later, and my 75B is still just as reliable and accurate as it was out of the box. With regular cleanings/maintenance and the use of mid- to high-grade ammunition, this gun has never jammed on me. Like the Browning is to my father, this CZ 75B is destined to be my own personal favorite many years (and rounds) from now. A beautiful piece of precision craftsmanship and highly recommended!

**Mark D. Aul-Professional Gun-Smith** – November 19, 2015:

I had a Deputy US Marshal see me about upgrading her CZ-75 P01 in 9mm. I have to commend the parts dept for getting me the parts I needed in a very timely manner. She wanted full length metal recoil rod new recoil spring slide stop and the dark coco-bolo wooden grips. she was very pleased Thanks again

**Jimmy Perez** – November 12, 2015:

I brought my first cz75b in a pawn shop in the late 90s in a 9mm I lake it so much very time I went target shooting I took my cz and left my eaa witness 45 at home I liked the feel of the cz so I had to buy another one but in 40s&w best choice ever made

**Zack H Duncan IV** – October 7, 2015:

purchased my CZ 75B in Bremerhafen Germany through my rod and gun club in 1988 and have had it ever since.

It is without a doubt the finest handgun I have ever fired. I will own it until the day I die !!!

**Donald Bondick** – September 6, 2015:

I first owned and fired a CZ many, many years ago and am fortunate to have purchased a brand new CZ-USA pistol for classroom instruction for NRA Basic Pistol Shooting Course and for Illinois Concealed Carry. I'm positive it will last for generations to come and will be loved by all.

**Senahid M** – August 23, 2015:

My first CZ and my first pistol in general. It is really hard to say something about this gun and stop there. There is so much to say. I really hate the fact that I see so many clones of CZ 75, whose owners might not even never heard of CZ. But, he knows he is shooting "amazing EAA Witness" and swears it's the most accurate...List of copied guns is too long to go that route. But it is actually proof that it's the platform that's best sought after. I will never sell my 75B, unless I am replacing it with new one. Lots of time spent with this model, 10's of thousands of rounds fired. After I shot couple of thousands through 75B barrel, I was bragging about it with my friends. One of them, used to be an officer in former communist country. He told me " I am going to stand and allow you to shoot at me at 60 meters" I just started to laugh, knowing that from that distance, I could pick and chose which body part I would shoot. I guess only gun he handled was TT-33, which is nightmare to shoot. Eventually, we were celebrating Independence day in mu home country. We were outside the city , in the hills. I let that friend shoot my CZ 75B before I showed him how far I have gotten with practice. After about 20 rounds from 20 meters or so, he looked at his target and just said "I'll be d...." Then, I asked him if he was still ready for "60 meters challenge". He just shook his head in disbelief. There, I was prod that I made best choice there was at that time. Now, I would only put one CZ model little ahead of 75B. But it's not about that now, so let's stick with 75B.

**clyde osborne** – August 16, 2015:

I have been a fan of the c z design for several years. I have owned several of the clones because of the lower prices. But I since moved up to real deal . I now own a C Z 75 B and C Z 75 D compact ( my EDC )!! I love these gun's, they are of better quality than any of the clones and well worth the price difference !! If you are thinking about getting one of these , quit thinking and do it , you will be glad you did !!

**Christopher Simon** – July 30, 2015:

I rented a CZ 75B at the indoor gun range I belong to and was pleasantly surprised after my first shot. The standard pistol target was placed out at 30 feet and my first round went thru the 8 ring. I consider myself to be a novice shooter, and was so astonished by the shot placement I had to reel in the target to make sure my eyes were seeing right. I was sold out right; this will be my next handgun purchase.

**ac guevara** – July 16, 2015:

JUST bought my second cz 75 and really do think these pistols are top notch guns. I have the cz 75b and also the cz 75 p-01. I live in California so I can not get the other models. I enjoy these guns so much and have not had any problems of any type on both guns. i do have other guns ,S&W shield,springfield XD,H&K USP,SIG SAUER 226 &220.And of course COLT 45 ACP. I LOVE GUNS AS YOU CAN SEE BUT THE CZ PISTOLS ARE MY GO TO PISTOL.

**Christopher S.** – June 25, 2015:

Excellent firearm. I rented the 75 B model at the gun range I belong to and sent the pistol target out to 30 feet. On my first shot I had to bring the target in because I hit the black and with the dark range background could not see where I hit. I did not have to be concerned

about where to hold the sights to hit center, I just lined up and shot. I sure was impressed with the accuracy of this pistol. All rounds were in the black, and this was with a range rental gun. I'm sold period the CZ 75 will be my next purchase and if I don't get the Classic B model it will be because I bought the upgraded SP-01.

**Garry McClanahan** – June 7, 2015:

I bought a new CZ 75B several years ago because I got it really cheap as mainly a cheap practice gun because I didn't know much about them. Now after 18,000+ rounds thru the years I had to buy another one because quite simply my first one has been flawlessly reliable darn accurate and feels great in the hand.

**Roger Salter** – May 24, 2015:

Great gun, I own some expensive 1911's, but this is by far the most reliable handgun I own. Only addition I have made to it is a set of Hogue grips. Recently qualified for a conceal permit with this gun, completely blew the bullseye out of the target. Looking to buy my next CZ a sub compact in a few weeks. keep up the good work CZ.

**Ash Boysel** – May 2, 2015:

FANTASTIC gun love everything about it, had a CZ in a 22 long gun and when it was time to get a pistol I went with the CZ in 9mm none better

**Jon Kellogg** – February 20, 2015:

I had one of the Italian copies of the CZ75 years ago and had to sell it. I liked it so much I decided to get the original this time around and "Oh Baby" am I happy. I put the factory cocobolo grips on mine on my second trip to the range and it was love at first sight. My 75b is

one of the finest firearms I have ever had the pleasure to fire, its a keeper.

**Derald Cox** – December 14, 2014:

CZ75B A fine fire arm for about 500 bucks new. many others of about 1000 bucks or more move over CZ has my vote,hands down.MY only regret, I did not purchase one long before now.

**Paul Martin** – November 26, 2014:

Traded my SR9 in today for a CZ75B. I was happy with my SR9 but never really liked the double action trigger, especially after I bought a SR22 with SA/DA action. I started looking for a SA/DA 9mm and was leaning towards a Berretta. Tried one out at my armory/range and it shot well but no better than my SR9. One of the salesman then showed me the CZ75B and after reading as many reviews as I could find I went back and bought one this morning. Shot 100 rounds with way more accuracy than was typical with my SR9 and even tried shooting out to 50' with all ten shots on the 12" target. I know that isn't match quality shooting but for me a long way out. All in all, couldn't be happier with the acquisition.

**Jonathan Chandler** – September 30, 2014:

This was my first hand gun and my first CZ. I've shot a few other brands, but I can't say enough about this particular model. I love it, and wouldn't replace it with anything else. A bit heavy and bulky for me to carry based on my frame size, but if I could, I'd be very happy. Extremely, no, ridiculously accurate and easy to maintain. The 75B weight distribution with a full clip is spot on and the design isn't over the top or under promised. It's just right! Love it.

**Jon Frost** – September 11, 2014:

I have a 75bd Police that I got from CZ Custom with some trigger work, etc. Exceptional gun. Accurate, easy to shoot, and zero malfunctions. I use it in USPSA, liked it so much I bought a Tactical Sport, P-09, and P-07. Saving my pennies for my next CZ!!

**Kerry Lancaster** – September 3, 2014:

My first 9mm(75B) pistol.Highly accurate and feels great in my hand. My wife loves this gun also.

every one I let shoot this gun is so impressed that five of my friends bought CZ,s. A total of Nine and my next is the 97BD.
