Part IV Supplemental Information

Complete this part to provide the information required in Part I, line 2, and any additional information

Part I, Line 2 - Grantmakers Explanation For Grants Outside US

Thorough due diligence is conducted in advance of funding to determine whether a group will be an appropriate grantee. We require groups to provide proof of tax status and/or registration documents and their organizational documents. All grantees are notified of the terms and conditions of each grant should it be awarded and grantees indicate acceptance by signature. All international grants are restricted to a clearly charitable purpose and must be used exclusively for activities conducted outside of the U.S. All grantees receive a written grant agreement, and by accepting payment the grantee agrees to the conditions of the award, which provides assurance that funds will not be used for any prohibited purpose.

For Expenditure Responsibility grants, we require reports for each fiscal year in which the grant monies have been received or spent that address (i) use of the grant funds, (ii) compliance with the terms and conditions of the grant, and (iii) progress toward achieving the grant's purpose(s). The reports are reviewed to confirm that all of the funds have been used for charitable purposes and whether all of the funds have been expended. A final report must indicate full expenditure and accounting for all grant funds, or no additional grants will be approved for the reporting organization. For other international grants, we require progress reports nine months after the grant has been awarded.

Part I, Line 2 - Grantmaker's Description of How Grants are Used

Thorough due diligence is conducted in advance of funding to determine the group's tax-exempt status and whether the group is appropriate from a mission perspective.

All grantees receive a written grant agreement which indicates whether lobbying is permissible and by accepting payment, the grantee agrees to the conditions of the award, which provide assurance that funds will not be used for any prohibited purpose.

If a grant is restricted to a particular non-lobbying purpose, organizations further agree that (i) any portion of the grant not used for the stated purpose must be repaid, (ii) any change of purpose must be requested and approved in advance, in

Part I, Line 2 - Grantmaker's Description of How Grants are Used (continued)

writing and (ii) not to use any portion of the grant to carry on propaganda or to attempt to influence specific legislation either by direct or grassroots lobbying.

Based on a risk assessment, we may require a progress report for certain grants nine months after the grant award in these situations. We ask the grantee to submit a two page narrative describing the use of the funds and activities undertaken as a result of the grant (including lobbying activity, if permitted), along with a financial report.
