

**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF ARIZONA
PRESCOTT DIVISION**

CENTER FOR BIOLOGICAL DIVERSITY,
et al.

Case No.: 3:12-cv-08176-SMM

Plaintiff,

vs.

UNITED STATES FOREST SERVICE, et
al.,

Defendants,

NATIONAL RIFLE ASSOCIATION OF
AMERICA and SAFARI CLUB
INTERNATIONAL,

Defendant-Intervenor-Applicants

DECLARATION OF JACK LESLIE RAINEY

I Jack Leslie Rainey declare as follows:

1. I am a resident of Peoria, Arizona.
2. I am employed as the Manager of System Design and Construction at an electric utility company.
3. I have been a member of Safari Club International for over fifteen years.
4. I have been a hunter for over 45 years.
5. I was introduced to hunting by my father who would take me dove hunting.

6. In addition to my extensive hunting in Arizona, I have hunted elk in Colorado; white tail deer in Kansas; and grizzly and black bear, dall sheep, caribou, mountain goat and sitka black tail deer in Alaska.
7. I have also hunted outside the United States. In Zimbabwe, I hunted kudu, bushbuck, impala, wildebeest, and warthog. In South Africa, I hunted kudu, gemsbuck, nyala, and impala.
8. I have hunted just about everywhere in Arizona.
9. In Arizona, I have elk, mule deer, whitetail deer, antelope, javelina, turkey, and mountain lion.
10. In the Kaibab National Forest, I hunted for mule deer.
11. When hunting in the Kaibab in the past, I used both lead-based and non-lead based ammunition.
12. I choose lead-based ammunition because it is more accurate, available and performs better on impact for a quicker and cleaner take of the animal.
13. When I used non-lead based ammunition in the past, I either purchased it or received it from the State of Arizona.
14. When shooting big game, I choose not to use non-lead based ammunition because the accuracy of the non-lead does not come close to the accuracy of the lead-based ammunition.
15. I have definite plans to hunt in the Kaibab National Forest. I have a deer tag for the 2012 late hunt for the east side of the forest.
16. If this litigation results in a ban on the use of lead ammunition for hunting in the Kaibab National Forest, I will lose the opportunity to hunt in the way that is most efficient and effective and that results in an immediate and painless take of the animal. If I am required to use non-lead based ammunition, it will reduce the likelihood of my success and will force me to shorten the range at which I am comfortable to shoot.
17. I make this statement in support of Safari Club International's motion to intervene in this lawsuit.

In accordance with 28 U.S.C. §1746, I declare under penalty of perjury that the foregoing is true and correct.

Dated this 19 day of October, 2012, at 1:30 PM

Jack Leslie Rainey
