

**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF ARIZONA
PRESCOTT DIVISION**

CENTER FOR BIOLOGICAL DIVERSITY,
et al.

Case No.: 3:12-cv-08176-SMM

Plaintiff,

vs.

UNITED STATES FOREST SERVICE, et
al.,

Defendants,

NATIONAL RIFLE ASSOCIATION OF
AMERICA and SAFARI CLUB
INTERNATIONAL,

Defendant-Intervenor-Applicants

DECLARATION OF THOMAS LEE BRITT

I Thomas Lee Britt declare as follows:

1. I am an Arizona resident.
2. I have been a member of Safari Club International since 1999, and I was president of the Safari Club International Northern Arizona Chapter from 2000-2003.
3. I am a lifetime Member of the National Rifle Association of America.
4. I am also a member of the Wildlife Society, the Rocky Mountain Elk Foundation, the National Wild Turkey Foundation, the Arizona Wildlife Foundation, the North American Wildlife Enforcement Officers Association and the Boone and Crockett Club.
5. I have been a hunter for about 60 years. I began hunting on my own with a Daisy b-b rifle, with some mentorship from my grandparents, and other adults.

6. I have hunted all over the United States, including in Arizona, Colorado, Idaho, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oregon, South Carolina, South Dakota, Utah, and Wyoming.
7. In Arizona I mainly hunt in the northern, and southeastern regions of the state, where I have hunted mule deer, elk, bison, turkey, mountain lion, black bear, white-tailed deer, antelope, javelina, bighorn sheep, quail dove, blue grouse, waterfowl, predators, band-tailed pigeon, and squirrels
8. In the Kaibab National Forest, I have hunted bison, mule deer, turkey, chukars, dove, waterfowl, squirrels, blue grouse, rabbits, and predators.
9. I have used traditional lead-based ammunition for all hunting.
10. I generally do not use non-lead alternative ammunition because most of my hunting on the North Kaibab over the last 20 years has been for blue grouse and turkey. For that type of hunting, I use shotguns that are not compatible with most brands of non-lead alternative ammunition. In fact, the majority of non-lead alternatives will damage these shotguns.
11. When I hunt blue grouse and turkey, I remove the entire carcass from the field. Because of this, the lead shot I use is not available to other wildlife to ingest.
12. While there may be some types of non-lead ammunition that I could use for my shotguns, it is not readily accessible. To obtain it I would either have to order the non-lead ammunition, or travel to Phoenix to purchase the type that may be compatible with the firearms I use to hunt turkey, blue grouse, rabbits, and chukars.
13. I have experience with non-lead ammunition. I have used non-lead rifle ammunition to hunt elk. I found that it proved to be a poor substitute for lead-based ammunition. The projectile did not expand properly, and merely punched a hole through the animal and consequently the animal had to be shot several times before it collapsed.
14. On other occasions, I have used steel shot for waterfowl hunting due to federal law requirements. Despite advancements in design, steel shot has never performed as well as lead shot.
15. I have definite plans to continue to hunt the North Kaibab for turkey, rabbits, chukars, and squirrels and will do so in the next several months. I may also hunt predators. I will certainly hunt mule deer again if I am successful in the lottery. Most of my grouse hunting is done on the south end of the Kaibab National Forest. My deer,

chukar, and rabbit hunting will be done on the west side along Kanab Creek. I hunt turkey all over the top of the Plateau in the ponderosa/mixed conifer forest type.

16. If lead ammunition is banned from the Kaibab then I will be harmed by the fact I cannot use my shotguns as they are not compatible with non-lead ammunition. The special type of non-lead ammunition that I can safely use is very expensive and difficult to obtain in Northern Arizona. In addition, the non-lead alternatives are often less efficient and accurate.
17. A ban on lead ammunition in the Kaibab National Forest will deprive me of the ability to use the firearms that I prefer and will interfere with my hunting success and enjoyment.
18. I make this statement in support of Safari Club International and the National Rifle Association of America's motion to intervene in this lawsuit.

In accordance with 28 U.S.C. §1746, I declare under penalty of perjury that the foregoing is true and correct.

Dated this 15th day of October, 2012, at FLAGSTAFF, AZ

Thomas Lee Britt
