## Aluminum

Stick with aluminum magazines, from recognizable manufacturers, either magazine makers or rifle makers. I've had some shooters bad-mouth magazines made with rifle manufacturers' names on the baseplates, but those I've seen have worked. They were obviously a sub-contract from the original, no-doubt USGI, magazine maker. If you buy enough of anything, the maker will put your name on it. Offer to buy 1,000, or 10,000 magazines, and the maker is likely to be pleased as punch to put anything on the baseplate you want. (Provided it isn't libelous, treasonous, or offends the sensibilities of the manufacturing staff.)

Aluminum magazines will have a hardcoat anodized finish in silver, with a black anodized aluminum baseplate. The followers may be bright or dull alloy, black plastic, or the new bright green anti-tip. Some aluminum magazines will have a black Teflon coating. The Teflon is not a USGI-approved treatment, although it wouldn't surprise me to see some of them over in Iraq. When there's a war on, you use what the makers are making.

## The Twenty

The original magazines were basically scaled-down 20-shot magazines derived from the M-14 magazine. As that rifle had had a decade of engineering done to it, it was a sturdy and reliable piece of gear. While the aluminum AR-15 magazines aren't as tough as the steel M-14 magazines, they are still quite good. The 20-shot M-16 magazines are so good that many shooters prefer them over all others. The compactness of the tube creates a stiff construct, and the feed lips hanging loose in the air is actually a good thing. As they are not attached at the rear, they can flex slightly against impact and survive. I've dropped 20-round mags on their feed lips and had them survive. The 30-shot magazines, with welded feed lips, have been known to crack if they fall on the lips.

Original 20-round magazines have bright or dull aluminum followers. Later ones have black plastic followers. The latest followers are the bright green anti-tip followers. However, as the 20-shot magazines are not prone to follower bind in the tube, you needn't swap out your existing followers for the green ones as a matter of course. If you do, be aware that the 20- and 30-round followers are not interchangeable. If you want new green followers in your 20-round magazines, be sure to order twenties and not thirties. The 20-round AR magazine fell off the charts for military orders in the early 1970s, being replaced by the 30-round magazine. If you do find some, good old NSN 1005-056-2237 will last you a long time.

## Types Of The Twenty

You won't find a whole lot of variety in 20-shot magazines. Collectors and some shooters desire them, but many shooters want only 20-round magazines. Basically, you'll find lots of Colt-marked aluminum magazines, and some Simmond-

marked ones. Some of the Colt magazines will be blocked to hold only five rounds. Colt made them to offer their customers who had hunting regulations prohibiting the use of magazines greater than five rounds while in the field. You can recognize them by the rivet on the baseplate. The rivet holds the baseplate to the retaining tab on the inside of the magazine. Inside the magazine you'll find a sheet metal "U" that restricts the travel of the follower. If you drill out the rivet, disassemble the magazine, and pull out the U, you have a 20-round magazine. Doing so may not be permitted in some states, so be sure you aren't committing a felony (I'm not kidding!) if you do it. Other short magazines you'll find are a result of the late and unlamented Assault Weapons Ban of 1994. In the AWB/94, no new magazine could be made that held more than 10 rounds. The "Post-Ban" magazines were all made with a plastic lower half, or a pinched and crimped middle section. If you tried to alter the magazine to make it hold more rounds, it will come apart on you. With the sunset of the AWB, makers are no longer fabricating the 10-shot versions. I'm sure those unfortunate shooters stuck in states with laws against hi-cap mags would be happy to take the AWB 10-shot mags off our hands.

One curious 20-round magazine you may see are what appear to be short 30-round tubes. These 20-round magazines have a short, curved section at the bottom. Why? I don't know, as those who make magazines are remarkably closed-mouthed about what they do and why. All I can surmise is that the idea of 20-round magazines being more reliable than 30-round magazines has gained such currency that the magazine manufacturers are slipping the short plates into 30-round forming dies. (So to speak. It isn't just that easy.) You need not worry about seeing too many of them, as the design did not come about until after the AWB/94 was enacted, so all the ones as of this writing (August 2004) have been made for law enforcement use only. The markings mean nothing now, except as curiosities.

There are some interesting 20-round magazines: they look like shortened thirties. Here is a pair in a Redi-mag carrier.

**24th Edition 1970***Edited by***John T. Amber**

You'll find a great article by Pete Kuhlhoff in this 24th edition, a history of the Marlin Firearms Company and the scores of firearms designs produced by them in the past 100 years. Thoroughly covered also are the latest Marlins, their Presentation and Century Limited grades shown on our covers front and back.

The prize-winning, Townsend Whelen Award article in this issue is *Six Guns Since Sixteen Hundred* by Merrill Lindsay, with superb photographs by Bruce Pendleton. Yes, Virginia, there were revolvers before Sam'l Colt came along.

"Gun Proof in France," the third chapter in our continuing *History of Proof Marks*, will be found in this edition. Lee Kennett, the author, covers French proof and proof marks in a fully documented and detailed study.

**OUR COVERS**

Marlin Models 336 and 39 in Presentation Grade appear on our front cover, with a Century Limited Model 39 gracing the back cover.

## U.S. CENTERFIRE RIFLES

... Autoloading

**[A] ARMALITE AR-180 SPORTER CARBINE**

Semi-automatic, gas operated carbine, cal. .223. Barrel, bolt, recoil buffer unit and stock assembled as straight-line unit, minimizes barrel jump on recoil. Over-all 38", bbl. 18 $\frac{1}{4}$ ", weight 6 $\frac{1}{2}$  lbs. Flip-up "L" type sight adj. for w.&e., post front adj. for e. Safety lever on both sides of receiver. Nylon folding stock, phenolic fiber-glass heat dissipating fore-end. Flash-hider compensator. Price includes two 5-rd. magazines .....\$237.00

3 power (2.75x20mm) telescope available with mounts..... 68.75

**[B] BROWNING HIGH-POWER AUTO RIFLE**

Gas-operated semi-automatic rifle. Bolt locks via 7-lug, rotary-head bolt. Detachable 5-shot trap-door mag., 22" bbl. with adjustable folding-leaf rear sight and hooded ramp front. French walnut p.g. stock (13 $\frac{5}{8}$ "x2"x1 $\frac{5}{8}$ ") and fore-end, with hand checkering. Wgt. 7 $\frac{3}{4}$  lbs., 43 $\frac{1}{2}$ " over-all. Cals. 270, 308, 243 Win., and 30-06. Grade I...\$174.50

Grade II. Same as Grade I except hand-rubbed, selected French walnut stock, and receiver hand engraved.....\$189.50

**BROWNING MAGNUM AUTO RIFLE**

Same as the standard caliber model, except weighs 8 $\frac{1}{2}$  lbs., 45 $\frac{1}{4}$ " over-all, 24" bbl., 3rd mag., Cals. 7mm Mag., 300 Win. Mag. and 338 mag. Grade I.....\$189.50 Grade II.....\$204.50

**[C] EAGLE "APACHE" CARBINE**

Recoil operated semi-automatic rifle, handles the 45 ACP cartridge from a 30-shot detachable magazine. Only 4 moving parts. Over-all length 36 $\frac{1}{2}$ ", bbl. length 16 $\frac{1}{2}$ ", weight 9 lbs. Protected post front sight, aperture rear. Black finish. ....\$129.95

**[D] HARRINGTON & RICHARDSON 360 ULTRA AUTOMATIC**

Gas-operated, semi-auto rifle. Side ejection, recessed bolt face, manual bolt stop. Sliding trigger guard safety. 3-round detachable box mag., 22" bbl. Open adj. rear sight, gold bead ramp front. Receiver tapped for scope. One-piece American walnut Monte Carlo stock, roll-over cheekpiece; checkered pistol grip and fore-end. 43 $\frac{1}{2}$ " over-all, wgt. 7 $\frac{1}{2}$  lbs. Cals. 243, 308.....\$189.00

**[E] J & R 68 SEMI-AUTOMATIC CARBINE**

Recoil operated carbine fires from a closed bolt. Cal. 9mm parabellum, 30-shot staggered box magazine. 28 $\frac{1}{2}$ " over-all, 16 $\frac{1}{4}$ " bbl., wgt. 7 lbs. unloaded. Sights: protected blade front; fixed peep rear. High impact plastic stock and fore-end.

Aircraft aluminum receiver. ....\$149.95

**[F] PLAINFIELD MACHINE CO. CARBINE**

Newly manufactured gas-operated cal. 30 M1 Carbine which duplicates size and appearance of popular GI model, including click adj. rear sight. Glossy finish stock. 18" bbl. Wgt. 5 $\frac{1}{2}$  lb. 35 $\frac{1}{2}$ " over-all. mag., 22" Douglas bbl. Open adj. rear sight, gold bead ramp front. Metal or wood handguard .....\$105.00

Paratrooper. With telescoping wire stock, front vertical hand grip. ....\$125.00

550	400	350	300	250	200

#### Model 99/44 Deerfield Carbine

A new and improved version, introduced in 2000, of the original Model 44 Carbine. Fitted with a 18.5" barrel this gas operated rifle has a hardwood stock and 4-round magazine capacity. Adjustable rear sight. Blued finish. Weight is about 6.2 lbs. This rifle will not cycle .44 Special ammo. Discontinued.

NIB	Exc.	V.G.	Good	Fair	Poor
700	525	400	275	200	150

#### Mini-14

This is a paramilitary-style carbine chambered for the .223 Remington and on a limited basis for the .222 cartridge. It has an 18.5" barrel and is gas-operated. The detachable magazines originally offered held 5, 10 or 20 rounds. The high-capacity magazines are now discontinued, and prices of them are what the market will bear. The Mini-14 has a military-style stock and aperture sight. It was introduced in 1975. 20-round magazine added 2009.

NIB	Exc.	V.G.	Good	Fair	Poor
600	500	400	275	200	150

#### Mini-14 Stainless Steel

The same as the Mini-14 except constructed of stainless steel.

NIB	Exc.	V.G.	Good	Fair	Poor
650	550	450	300	200	150

#### Mini-14 Target Rifle

Accurized version of the Mini-14 but with matte stainless barrel and receiver, black laminated thumbhole stock, adjustable harmonic dampener. No sights. Also available with non-thumbhole synthetic stock. Introduced in 2007.

NIB	Exc.	V.G.	Good	Fair	Poor
1025	900	775	600	400	250

#### Mini-14 Ranch Rifle

This model is similar to the standard Mini-14, with a folding rear sight and the receiver milled to accept the Ruger scope system. The rings are supplied with the rifle. 6.8 Remington chambering also available. **NOTE:** Models chambered in .222 caliber will bring a premium.

### Hi-Power Modern Production

This version of FN Model 1935 is quite similar in appearance to original described in FN section. Chambered for 9mm Parabellum cartridge. Has 4.75" barrel. Models built before passage of crime bill have double column, 13-round detachable box magazine, blued, with checkered walnut grips. Has fixed sights and been produced in its present configuration since 1954. Add 10 percent premium for adjustable sights. Matte-nickel version offered between 1980 and 1984 was also available and would be worth approximately 15 percent additional. From 1994 to 2010 available in .40 S&W. **NOTE:** Add \$60 for adjustable sights; 35 percent for internal extractor.

*Hi-Power with spur hammer and adjustable sights*

NIB	Exc.	V.G.	Good	Fair	Poor
800	650	500	300	225	150

### MODEL 1935/HI-POWER/GP

Last design from John Browning developed between 1925 and 1935. Pistol known as Model 1935, P-35, Hi-Power or HP and also GP (which stood for "Grand Puissance") and referred to by all those names at one time or another. HP is essentially an improved version of Colt 1911 design. Swinging link replaced with fixed cam, which was less prone to wear. Chambered for 9mm Parabellum and has a 13-round detachable magazine. Only drawback to the design, that the trigger pull is not as fine as that of the 1911, as there is a transfer bar instead of stirrup arrangement. This is necessary, due to increased magazine capacity resulting in thicker grip. Barrel is 4.75" in length. External hammer with manual and magazine safety. Available with various finishes and sight options. Furnished with shoulder stock. Model 1935 used by many countries as their service pistol, as there are many variations. We list these versions and their approximate values.

### Pre-War Commercial Model

Found with sliding tangent rear sight and slotted for detachable shoulder stock. Manufactured from 1935 until 1940.

#### Tangent Sight Version

NOTE: Wood holster stock add 50 percent.

NIB	Exc.	V.G.	Good	Fair	Poor
—	2000	1800	1500	1000	400

### Pre-War Military Contract

Model 1935 adopted by many countries as a service pistol. Following, is a list:

### German Military Pistol Model 640(b)

In 1940, Germany occupied Belgium and took over the FN plant. Production of Model 1935 continued, with Germany taking the output. FN plant was assigned production code "ch" and many thousands were produced. Finish on these Nazi guns runs from as fine as Pre-war Commercial series to downright crude. Possible to see how war was progressing for Germany by finish on their weapons. One must be cautious with some of these guns as there have been fakes noted, with their backstraps cut for shoulder stocks, producing what would appear to be a more expensive variation. Individual appraisal should be secured if any doubt exists.

### Captured Pre-war Commercial Model

These pistols were taken over when plant was occupied. Slotted for stocks and have tangent sights. Few produced between serial number 48,000 and 52,000. All noted have WA613 Nazi proof mark. Beware of fakes!

**Post-War Military Contract**

Manufactured from 1946, they embody some design changes—such as improved heat treating and barrel locking. Pistols produced after 1950, do not have barrels that can interchange with earlier model pistols. Earliest models have an "A" prefix on serial number and do not have the magazine safety. Pistols were produced for many countries and there were many thousands manufactured.

**GABBET-FAIRFAX, H.**  
Birmingham, England**Mars**

Designed by Hugh Gabbet-Fairfax, this semi-automatic pistol first produced on an experimental basis by Webley & Scott Revolvers in the 1890s. After Webley gave up on the idea an extremely limited number were built by Mars Automatic Pistol Syndicate, Ltd., 1897 to 1905. Pistol produced in four calibers; 8.5mm Mars, 9mm Mars, .45 Mars Short Case, and .45 Mars Long Case. Most powerful handgun cartridge of its time and remained so until well after World War II. It is estimated that only about 80 of these pistols were ever produced. **NOTE:** Webley examples are worth a premium.

**GABILONDO Y CIA**

See—Llama

**GABILONDO Y URRESTI**Guernica, Spain  
Elgoibar, Spain

See—Llama

Spanish firm founded in 1904 to produce inexpensive revolvers of Velo-Dog type. Sometime around 1909 the firm began to manufacture Radium revolver. In 1914 the company produced a semi-automatic pistol distributed as Ruby. This pistol soon became the mainstay of the company, with orders of 30,000 pistols a month for the French army. End of WWI Gabilondo Y Urresti moved to Elgoibar, Spain. Company produced a Browning 1910 replica pistol until early 1930s. It was at this point that Gabilondo began to manufacture a Colt Model 1911 copy that became known as Llama. For information of specific Llama models see Llama section. Pistols listed reflect pre-Llama period and are so marked, with the trade name of that particular model. Monogram "GC" frequently appears on grips but not on slide.

**Velo-Dog Revolver**

A 6.35mm double-action revolver with 1.5" barrel, folding trigger and concealed hammer. Blued with walnut grips. Manufactured from 1904 to 1914.

## System Mauser

### SPAIN

#### AZUL AND SUPER AZUL

Unlike either the Astra or Royal Mauser copies, the Azul and Super Azul are actually very faithful reproductions of the Mauser design. The manufacturer was Eulogio Arostegui of Eibar, though at least some of the weapons were, like the Royal, marketed by Beistegui Hermanos.

The Azul version is semi-automatic only, while the designation of "Super Azul" was applied to any of the several selector-switch pistols. Quite a few of these guns seem to have been made, but as most of them have the full-automatic feature they are rarely seen in the United States. They have a reputation for reliable functioning and durability, though neither internal nor external finish is on a par with that of the Mauser or the Astra.
